- **ELEANOR JANEGA** teaches medieval and early modern history at the London School of Economics. She is the creator of the popular blog *Going Medieval* and author of *The Middle Ages: A Graphic History*.

## The Once and Future Sex

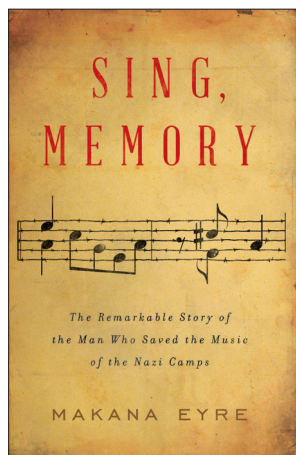

Going Medieval on Women's Roles in Society

Eleanor Janega

**A vibrant and illuminating exploration of medieval thinking on women's beauty, sexuality and behaviour**

What makes for the ideal woman? How should she look, love and be? In this high-spirited history, medievalist Eleanor Janega unfurls the era's ideas about women. Some of these attitudes were not new to the time: beauty ideals of the Middle Ages, for instance, rested on the mythical and unparalleled Helen of Troy. Janega explores the paradox of real women being expected to look like goddesses while attention to appearance was denigrated as vanity by medieval Christian philosophers. Such men also cast Eve's shadow over contemporary women, deriding them as oversexed sinners, inherently lustful and weak. This era marked the cultural relegation of women to motherhood but Janega shows that despite these expectations, medieval women were industrious farmers, brewers, textile workers, artists and artisans, paving the way for new ideas about women's nature, intellect and ability.

- **MAKANA EYRE** is a journalist based in Paris, covering politics, the far right and the media, with a focus on Europe. His work has appeared in publications including *The Washington Post*, *The Nation* and *The Guardian*.

## Sing, Memory

The Remarkable Story of the Man Who Saved the Music of the Nazi Camps

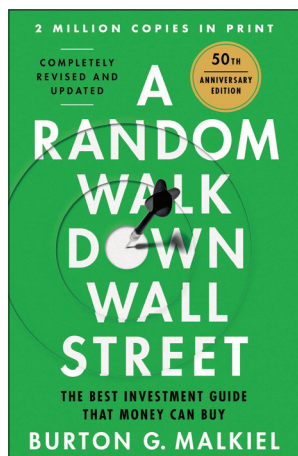

Makana Eyre

**A Polish musician, a Jewish conductor, a secret choir and the rescue of a trove of music from the Sachsenhausen concentration camp**

On an October night in 1942, SS guards at Sachsenhausen violently disbanded a rehearsal of a secret Jewish choir led by conductor Rosebery d'Arguto. Only one of its members lived through the Holocaust. Yet their story survives, thanks to an amateur musician, Aleksander Kulisiewicz.

In *Sing, Memory*, Makana Eyre recounts Kulisiewicz's transformation from a Polish nationalist into a guardian of music and culture from the Nazi camps. Aided by an eidetic memory, Kulisiewicz preserved for posterity not only his own songs about life at the camp, but the music and poetry of dozens of other prisoners. Drawing on extensive archival research, Eyre tells this rich and affecting human story of musical resistance to the Nazi regime in full for the first time.

## A Random Walk Down Wall Street

The Best Investment Guide That Money Can Buy

Burton G. Malkiel

*Thirteenth Edition*

**One of the “few great investment books” ever written, with two million copies in print**

In times of increasing inequality and misinformation, Burton G. Malkiel's gimmick-free investment guide is more necessary than ever. Whether you're considering your first investment or contemplating retirement, the 50th-anniversary edition of *A Random Walk Down Wall Street* offers invaluable guidance. Malkiel shows why an individual who saves consistently over time and buys a diversified set of index funds can achieve above-average results. He provides critical analyses of cryptocurrencies, NFTs and “meme stocks”. He shows how to be a tax-smart investor and analyses the recently popular investment management techniques. Investors of every age, experience level and risk tolerance will find guidance on how to protect and grow their money. Malkiel's reassuring and informative volume remains the best investment guide money can buy.

## A Hacker's Mind

How the Powerful Bend Society's Rules, and How to Bend Them Back

Bruce Schneier

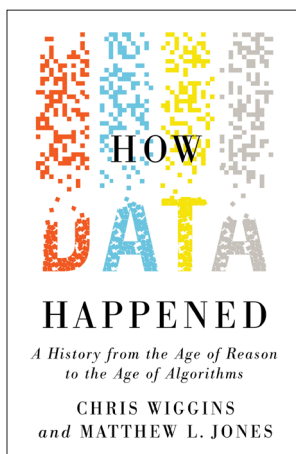

**It's not just computers—hacking is everywhere**

A hack is a means of subverting a system's rules in unintended ways. The tax code is a series of complex formulas which has vulnerabilities we call “loopholes”, exploited as “tax avoidance strategies”. There is an industry of “black hat” hackers who find loopholes in the tax code.

In *A Hacker's Mind*, Bruce Schneier analyses the systems that underpin our society. He reveals an array of powerful actors whose hacks bend our economic, political and legal systems to their advantage. When artificial intelligence starts thinking like a hacker—at inhuman speed and scale—the results could be catastrophic.

For those who would don the “white hat”, we can understand the hacking mindset and rebuild our systems to counter those who would exploit society. And we can harness artificial intelligence to improve existing systems, and predict and defend against hacks.

## How Data Happened

A History from the Age of Reason to the Age of Algorithms

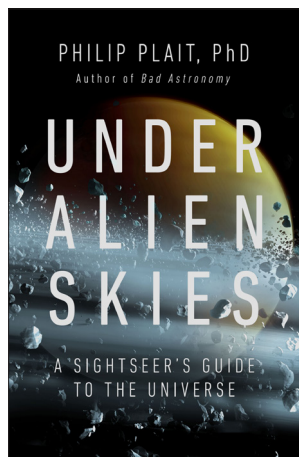

Chris Wiggins and Matthew L. Jones

**A sweeping history of data and its technical, political and ethical impact on our world**

From facial recognition to automated decision systems, each of us moves through a world determined by data-empowered algorithms. But these technologies didn't just appear: they are part of a history that goes back centuries, from the birth of eugenics in Victorian Britain to the development of Google search.

Expanding on a popular course they created at Columbia University, Chris Wiggins and Matthew Jones illuminate the ways in which data has long been used as a tool and a weapon in arguing for what is true, as well as a means of rearranging or defending power. By understanding the trajectory of data—where it has been and where it might yet go—Wiggins and Jones argue that we can understand how it bends it to ends that we collectively choose, with intentionality and purpose.

## Under Alien Skies

A Sightseer's Guide to the Universe

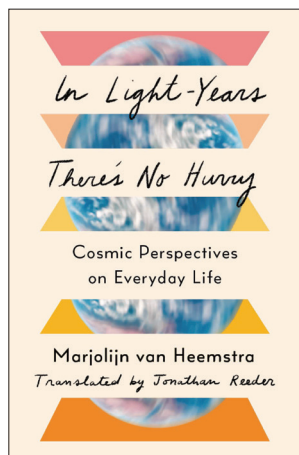

Phil Plait

**A rip-roaring tour of the cosmos with the Bad Astronomer, revealing the sky as never seen before—from everywhere but Earth**

How would Saturn's rings look from a spaceship sailing just above them? If you were falling into a black hole, what's the last thing you'd see before your spaghettification?

Faster-than-light travel may never be invented but we can still take the scenic route through the universe with renowned astronomer and science communicator Philip Plait. On this lively, immersive adventure through the cosmos, Plait draws on the latest scientific research to transport readers to ten spectacular sites, from our own Moon to the outer reaches of our solar system and far beyond. Whether strolling through a dust storm under Mars' butterscotch sky, witnessing the birth of a star or getting dizzy in a technicolour nebula, Plait is an illuminating, entertaining guide to the most otherworldly views in our universe.

## In Light-Years There's No Hurry

Cosmic Perspectives on Everyday Life

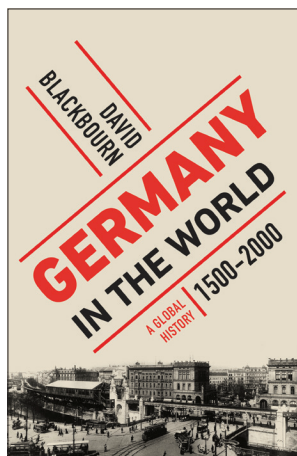

Marjolijn van Heemstra

Translated by Jonathan Reeder

**How seeing Earth through the eyes of an astronaut brings new wonder and meaning to life on our planet**

One restless summer, anxious and dismayed by mounting crisis and conflict on Earth, Marjolijn van Heemstra learns of a phenomenon known as the overview effect. Experienced by many astronauts when beholding our planet from the remoteness of space, it's a permanent shift in consciousness—an overwhelming sense of wholeness and connection with humanity and the planet. *In Light-Years There's No Hurry* is the account of van Heemstra's year-long quest to experience the overview effect on Earth. Contemplating the solace a cosmic perspective offers in our frenetic, divided world, *In Light-Years There's No Hurry* is a lyrical, searching meditation on what it is to be human amidst the vastness of the universe.

- **DAVID BLACKBOURN** is the Cornelius Vanderbilt Distinguished Chair of History at Vanderbilt University. He is the author of seven books.

## Germany in the World

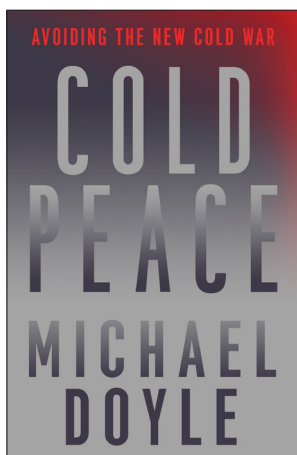

A Global History, 1500-2000

David Blackbourn

**Brilliantly conceived and majestically written, this monumental work recasts the five-hundred-year history of Germany**

In *Germany in the World*, David Blackbourn radically revises conventional narratives of German history, demonstrating the existence of a distinctly German presence in the world centuries before its unification, revealing a national identity far more complicated than previously imagined. Blackbourn traces Germany's evolution from the Holy Roman Empire of 1500 to a colonial power to a twenty-first-century beacon of democracy. Viewed through a global lens, familiar landmarks of German history are transformed, while others are unearthed and explored, as Blackbourn reveals Germany's role in creating modern universities and its involvement in slave-trade economies. A global history, *Germany in the World* is a bold and original account that upends the idea that a nation's history should be written as though it took place entirely within its borders.

## Cold Peace

Avoiding the New Cold War

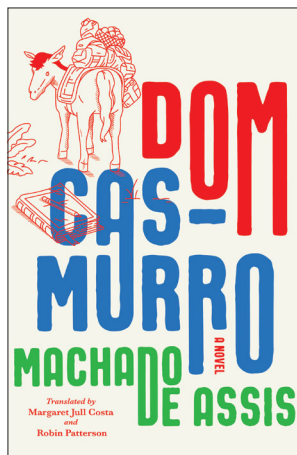

Michael W. Doyle

**An urgent examination of the world barrelling towards a new Cold War**

With an historian's eye and a theorist's ingenuity, Michael Doyle, whose writings on liberal peace have revolutionised modern statesmanship, cogently assesses the tectonic shifts threatening the global order. As tensions among China, Russia and the US escalate perilously towards a new Cold War, Doyle introduces a radical paradigm that will facilitate the international co-operation.

Combining dramatic history with trenchant analysis and landmark theory, Doyle explores the impacts of cyberwarfare, foreign election meddling and the unprecedented schism of modern politics on American foreign policy. He demonstrates that there can be no success in addressing climate change without China's co-operation, nor any hope of averting nuclear catastrophe without Russia's. *Cold Peace* provides one of the most necessary analyses of global power in decades.

- **JOAQUIM MARIA MACHADO DE ASSIS** was born in Rio de Janeiro and, along with seven short-story collections, wrote such landmark novels as *Quincas Borba* and *The Alienist*.

## Dom Casmurro

### A Novel

Joaquim Maria Machado de Assis

Translated by Margaret Jull Costa and Robin Patterson

**A masterpiece of realism, Machado de Assis's *Dom Casmurro* probes the mind of a distrustful husband with delusions of grandeur**

Hailed as “the greatest writer ever produced in Latin America” (Susan Sontag), Machado’s genius is on full display in this fresh translation of the 1899 classic *Dom Casmurro*. In his supposed memoir, Bento Santiago, an engaging yet unreliable narrator, suspects his wife, Capitu, of having an affair with his closest friend. Withdrawn and obsessive, our antihero mines the origins of their love story. A gripping domestic drama brimming with Machado’s signature humour, this is another stunningly modern tale from the progenitor of twentieth-century fiction.

- **MARGARET JULL COSTA** and **ROBIN PATTERSON**’s critically acclaimed translations of *Posthumous Memoirs of Brás Cubas* (ISBN 978 1 324 09050 2) and *The Collected Stories of Machado de Assis* (ISBN 978 0 87140 496 1) introduced a new generation of readers to one of Brazil’s most ground-breaking authors.

## The Sickness Unto Death

### A New Translation

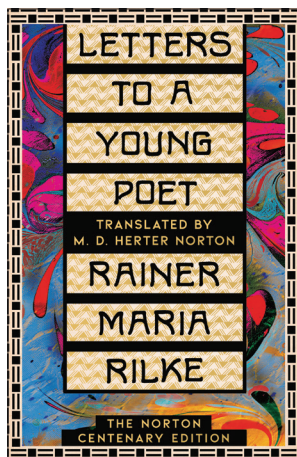

Søren Kierkegaard

Translated by Bruce H. Kirmmse

**An impassioned investigation of the self, *The Sickness unto Death*, now newly translated, is a founding document of modern existentialism**

First published in 1849 under the pseudonym “Anti-Climacus”, Søren Kierkegaard’s *The Sickness unto Death* endures as a seminal text in the history of theology and moral philosophy and an essential companion to his earlier works. Beginning with the biblical story of Lazarus, Kierkegaard presents his explication of despair as the “sickness unto death”, that is, a sickness not of the body but of the spirit and thus, of the self. A dramatic “medical history” of the course of this sickness, *The Sickness unto Death* culminates in a crisis. Masterfully translated by Bruce H. Kirmmse, this trenchant, explosive inquiry into the human soul spares no one, not even its author.

## Letters to a Young Poet

The Norton Centenary Edition

Rainer Maria Rilke

*Translated by M.D. Herter Norton*

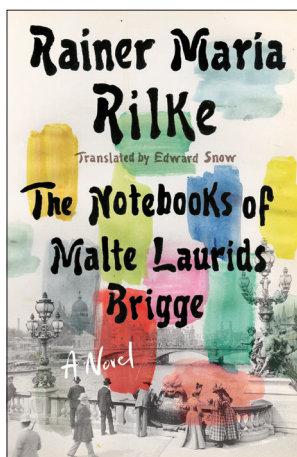

*Foreword by Damion Searls; Afterword by Julia Reidhead*

**A gorgeous reissue of one of the most beloved classics of the twentieth century, published in celebration of Norton's 100th anniversary**

These letters from the poet and mystic Rainer Maria Rilke to a nineteen-year-old cadet and aspiring poet have inspired millions of readers since they were first published in English in 1934. The first and most popular, translator of this work was Mary Dows Herter Norton—a polymath extraordinaire who played a crucial role in elevating Rilke's global reputation.

The Norton Centenary Edition commemorates this extraordinary woman, known as “Polly” to friends and colleagues, and celebrates the 100th anniversary of the publishing company she co-founded. With a foreword by Damion Searls and an afterword by Norton's current president, Julia Reidhead, this handsome new edition brings Rilke's enduring wisdom about life, love and art to a new generation.

## The Notebooks of Malte Laurids Brigge

A Novel

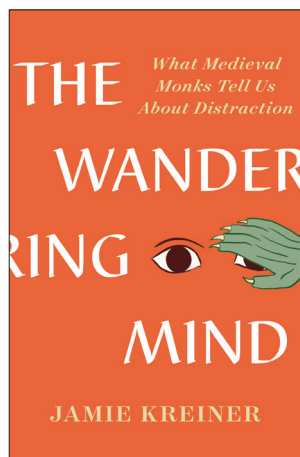

Rainer Maria Rilke

*Translated by Edward Snow*

**A revelatory new translation from one of “the most trustworthy and exhilarating of Rilke's contemporary translators” (Michael Dirda, *The Washington Post*)**

A ground-breaking masterpiece of early European modernism originally published in 1910, *The Notebooks of Malte Laurids Brigge* reveals a writer metabolising his own experiences to yield still-essential questions about fiction and reality, empathy and psychosis, and—above all—life, love and death. Edward Snow's exquisite translation captures as never before the astonishing cadences and musical clarity of the poet's prose. It reveals *The Notebooks of Malte Laurids Brigge* as an urgent contemporary achievement, more than one hundred years after it was written.

## The Wandering Mind

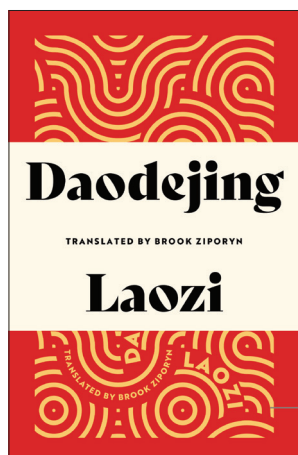

What Medieval Monks Tell Us About Distraction

Jamie Kreiner

**How Christian monks identified distraction as a fundamental challenge—and how their efforts to defeat it can inform ours**

It is easy to imagine that our state of distractedness is peculiar to the digital age but distraction has been a concern in every era—perhaps never more so than for Christian monks living in Ireland, Iran and the places in between, from 300 to 900 CE. Though they left the world for lives of seclusion, monks struggled to concentrate and they came to perceive distraction as a fundamental problem of consciousness. As Jamie Kreiner reveals in *The Wandering Mind*, we are obsessed with distraction today in large part because they were. Exploring the techniques monks developed in their quest to clear their heads, Kreiner demonstrates that their insights can be useful to us now. Blending history and psychology, *The Wandering Mind* is a witty, illuminating account of human fallibility that bridges a distant era and our own.

## Daodejing

Laozi

Translated by Brook Ziporyn

**A transformative new edition of Taoism's central text that overturns its reputation for calming, gnomic wisdom, revealing instead a work of "philosophical dynamite"**

Grounded in a lifetime of research and interpretive work and informed by careful study of recent archaeological discoveries of alternate versions of the text, Brook Ziporyn, one of the pre-eminent explicators of Eastern religions in English, brings us a revelatory new translation—and a radical reinterpretation—of the central text of Taoist thought. Ziporyn offers an alternative to the overly comforting tone of so many translations, revealing instead the electrifying strangeness and explosively unsettling philosophical implications of this famously ambiguous work. In Ziporyn's hands, this is no mere "wisdom book" of anodyne affirmations or mildly diverting brain-teasers—this path-breaking *Daodejing* will forever change how the text is read and understood in the West.

Danielle Clode

- **DANIELLE CLODE** is a biologist and an award-winning author. Her books include *Killers in Eden*, *Voyage to the South Seas*, and *The Wasp and the Orchid*, which was short listed for Australia's National Biography Award. She lives in the Adelaide Hills, South Australia.

## Koala

A Natural History and an Uncertain Future

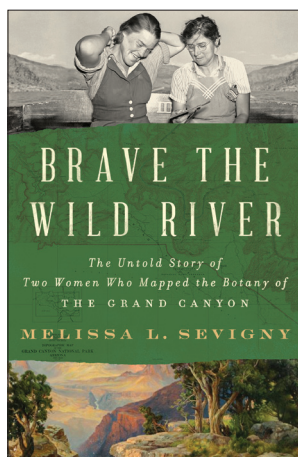

Danielle Clode

**"An insightful book that deepens our understanding of this fascinating animal."**—Peter Wohlleben, author of *The Hidden Life of Trees*

Koalas regularly appear in Danielle Clode's backyard but when a threatening bush fire turned her attention to them, she realised there was a lot to learn about these popular-yet-enigmatic animals. So she embarked on a journey through evolutionary biology, natural history and ecology to understand where they had come from and what their future holds.

Starting with fossils of ancient giant koalas, including unexpected new findings, she explores why this species is the lone survivor of a once-diverse family of Australian marsupials. In vivid, descriptive prose, she investigates their characters and physiology, from pouches to gut bacteria. Now, as koalas are in danger from environmental destruction and wildfires, Clode reflects on how we can protect this iconic and beloved species and the distinctive trees they depend on.

## Brave the Wild River

The Untold Story of Two Women Who Mapped the Botany of the Grand Canyon

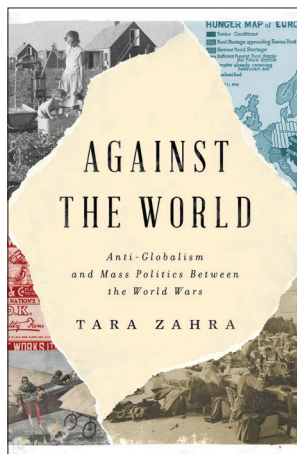

Melissa L. Sevigny

**The riveting tale of two pioneering botanists and their historic boat trip down the Colorado River through the Grand Canyon**

In the summer of 1938, Elzada Clover and Lois Jotter set off down the Colorado River, accompanied by an ambitious expedition leader and three amateur boatmen. The Colorado River was famed as the most dangerous river in the world but for Clover and Jotter, it held a tantalising appeal: no one had surveyed the Grand Canyon's plants and they were determined to be the first.

Through the vibrant letters and diaries of the two women, Melissa L. Sevigny traces their forty-three-day journey. Their story is a spell-binding adventure of two women who risked their lives to make an unprecedented botanical survey of a little-known area of the American West at a time when human influences had begun to change it forever.

## Against the world

Anti-Globalism and Mass Politics Between the World Wars  
Tara Zahra

**A brilliant, eye-opening work that speaks volumes about today's battles over international trade, immigration, public health and global inequality**

Tara Zahra examines how nationalism came to ensnare world politics in the early twentieth century. With the First World War the air went out of the globalist balloon, then the Great Depression amplified a quest for food security in Europe and economic autonomy worldwide. Demands for relief from the instability and inequality linked to globalisation forged democracies and dictatorships alike. Immigration restrictions, and outbursts of hatred of the “other” became the norm—coming to genocidal fruition in the Second World War.

Rich with detail, *Against the World* is a poignant and thorough exhumation of the popular sources of resistance to globalisation. Zahra’s arrestingly clear sighted and wide-angled account is essential reading to grapple with our divided present.

## The Undertow

Scenes from a Slow Civil War  
Jeff Sharlet

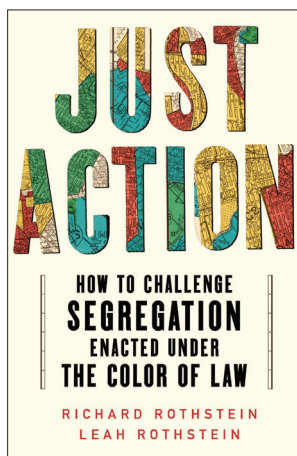

**One of America's finest reporters and essayists explores the powerful currents beneath the roiled waters of a nation coming apart**

In the undertow, the forty-fifth president of the United States, a vessel of conspiratorial fears and fantasies, continues to rise to sainthood, and the insurrectionist Ashli Babbitt, killed on 6 January at the Capital, is beatified as a martyr of white womanhood.

Both political inquiry and mediation, as poetic as it is profound and disturbing, *The Undertow* captures a decade of growing division: roughly 2011–2021. Jeff Sharlet examines currents of gender, faith and money that brought us to the “Trumpocene”, and explores a geography of grief and uncertainty in the midst of plague and rising fascism. Beginning and closing with freedom songs of the past whose critique of American failures are nonetheless a vision of American possibility, *The Undertow* is a necessary reckoning with the present, precarious condition.

## Just Action

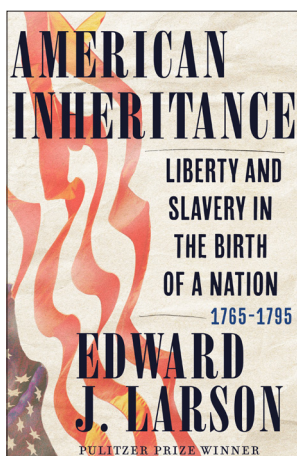

Creating a Movement That Can End Segregation Enacted under the Color of Law

Leah Rothstein & Richard Rothstein

***The Color of Law* recounted how the American government at all levels created segregation. *Just Action* describes how to begin to undo it**

"The most forceful argument ever published on how federal, state, and local governments gave rise to and reinforced neighbourhood segregation" (William Julius Wilson), *The Color of Law* (ISBN 978 1 63149 453 6) is a landmark work, selling nearly 1,000,000 copies. Aware that twenty-first-century segregation continues to promote inequality and exploit political polarisation, Richard Rothstein paired with Leah Rothstein to write *Just Action*. The co-authors have produced a social blueprint for community leaders, concerned residents and citizens, insisting that the private sector take responsibility for redressing the segregation that it played a large part in creating. *Just Action*, with trenchant insight, provides the groundwork for remedying America's unconstitutional past.

## American Inheritance

Liberty and Slavery in the Birth of a Nation, 1765-1795

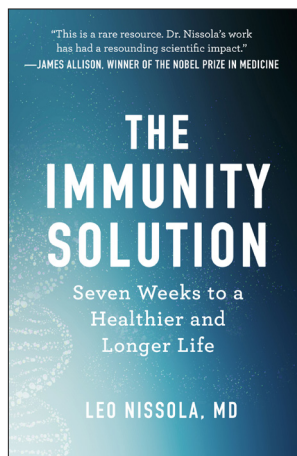

Edward J. Larson

**A powerful history that reveals how the twin strands of liberty and slavery were joined in the founding of the United States**

New attention from historians and journalists is raising pointed questions about the founding period and we have long needed a history that fully includes Black Americans in the American Revolution and freedom that followed. We have that history in *American Inheritance*.

With slavery thriving in Britain's Caribbean empire and practised in all of the American colonies, the independence movement's calls for liberty proved narrow. Larson's narrative delivers poignant moments that deepen our understanding: we witness New York's tumultuous welcome of Washington as liberator through the eyes of Daniel Payne, a Black man who had escaped enslavement at Mount Vernon. Throughout Larson's brilliant history it is the voices of Black Americans that prove the most convincing of all on the urgency of liberty.

## The Immunity Solution

Seven Weeks to a Healthier and Longer Life

Leo Nissola

**Optimise the body's natural defences with this essential, science-based guide and its simple programme of practical strategies to help support the immune system**

Leo Nissola provides an overview of the human body's defences, revealing what can cause problems, how to recognise warning signs and how to fight back. Every day, bacteria, viruses and other germs attack us but we stay healthy most of the time. Nissola explains why improving the body's natural defences should be at the top of our health priorities and details the treatments that researchers are developing to hack the immune system. He explores the latest science on immune-boosting diets, supplements and longevity while debunking myths about antibodies, inflammation and why some people rarely get ill. Featuring a step-by-step programme, this handbook will help readers support their body's defences, ward off ageing and maximise their health.

## Sleep Reimagined

The Fast Track to a Revitalized Life

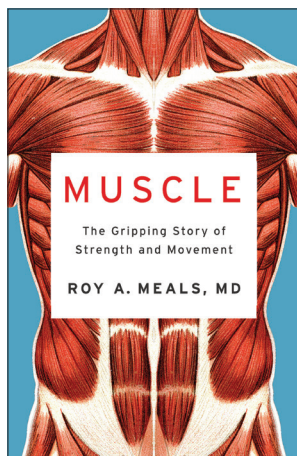

Pedram Navab

**Ditch insomnia in as little as four weeks with this six-step therapeutic programme for better sleep**

Insomnia looks different for everyone. Whether it's caused by stress, a traumatic life event or even a snoring partner, poor sleep can affect the quality of your waking life. But Pedram Navab wants readers to know that it's not a lost cause—falling asleep can be just as easy as waking up.

In *Sleep Reimagined*, the six-step CBT-I programme teaches readers how to understand sleep, rewire their arousal system through therapeutic relaxation, practise sleep restriction and stimulus control, restructure attitudes towards sleep, use mindfulness intervention to continue cognitive components and prevent insomnia relapse through planning. Both comprehensive and entertaining, this book is the perfect bedside companion to discover better sleep and better life.

## Muscle

### The Gripping Story of Strength and Movement

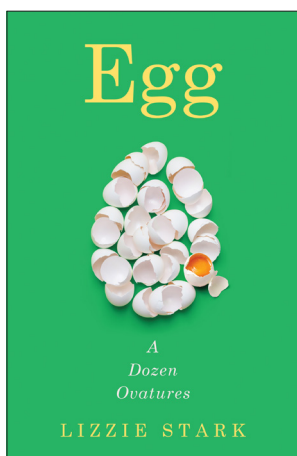

Roy A. Meals

**An entertaining illustrated deep dive into muscle, from the discovery of human anatomy to the latest science of strength training**

Muscle tissue powers every heartbeat, blink, jog, jump and goose pimple. It is the force behind the most critical bodily functions, including digestion and childbirth, as well as extreme feats of athleticism. We can mould our muscles with exercise and observe the results.

In this lively, lucid book, Roy Meals takes us on a wide-ranging journey through anatomy, biology, history and health to unlock the mysteries of our muscles. He breaks down the three different types of muscle—smooth, skeletal and cardiac—and explores major advancements in medicine and fitness. Along the way, he offers insight into the changing aesthetic and cultural conception of muscle and shares fascinating examples of strange muscular maladies and their treatment. Brimming with fun facts and infectious enthusiasm, *Muscle* sheds light on the astonishing, essential tissue that moves us through life.

## Egg

### A Dozen Ovatures

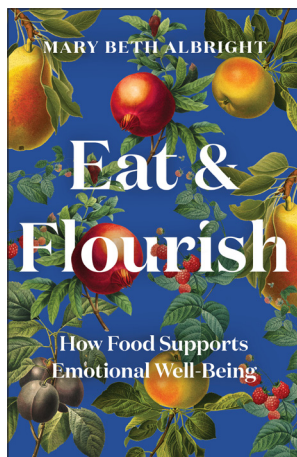

Lizzie Stark

**An unconventional history of the world's largest cellular workhorse, from chickens to penguins, art to egg crimes and more**

Lizzie Stark takes readers on a witty and revealing journey through the natural and cultural history of the egg, exploring its symbolism, uses and metabolic importance in twelve dazzling specimens. From Mali to Finland, Stark looks at cultures that find the world's origins in an egg.

Decorated by Ukrainians, an oracle for Greeks, the impetus behind gang wars and flown into space, the egg has taken on mythic proportions, all the while serving as a humble ingredient in fancy dishes. *Egg* is also about Stark's fascination with this delicate ovoid—both her myriad attempts to create a perfect omelette and her fraught relationship to the ova in her body. Filled with colourful characters and fascinating morsels, *Egg* is a playful, informative and surprising history that guarantees the reader will never take the egg for granted again.

## Cooking for the Culture

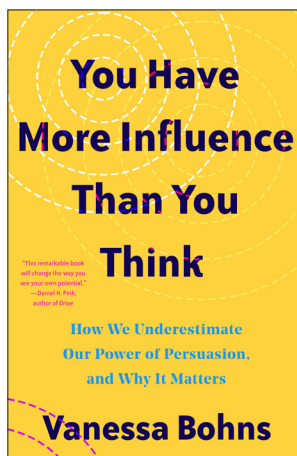

### Recipes and Stories from the Streets of New Orleans to the Table

Toya Boudy

#### An intimate celebration of New Orleans food and its Black culture from a born-and-raised local chef

Toya Boudy's father grew up in the Magnolia projects of New Orleans; her mother shared a tight space with five siblings uptown. They worked hard, rotated shifts and found time to make meals from scratch for the family. In *Cooking for the Culture*, Boudy shares these recipes, many of which are deeply rooted in the proud Black traditions that shaped her New Orleans. Driving the cookbook are her personal stories: from struggling in school to having a baby at sixteen, from her growing confidence in the kitchen to her appearances on Food Network. The result is a deeply personal and unique cookbook.

## To Walk About in Freedom

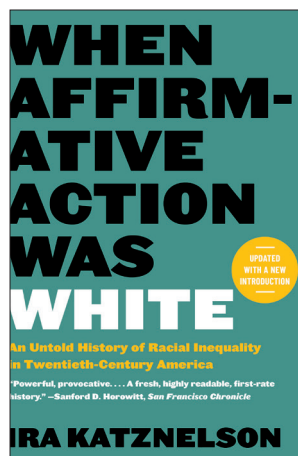

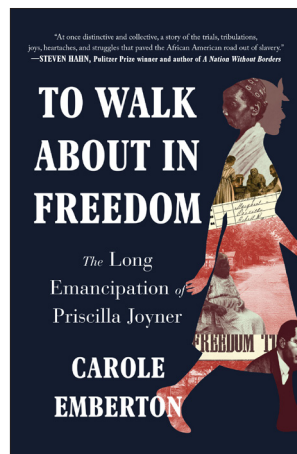

The Long Emancipation of Priscilla Joyner

Carole Emberton

**The extraordinary life of Priscilla Joyner and her quest—along with other formerly enslaved people—to define freedom after the American Civil War**

Priscilla Joyner’s story—candidly recounted in an oral history for the Federal Writers’ Project—captures the intimate nature of freedom. Using Joyner’s interview and the interviews of other formerly enslaved people, Carole Emberton uncovers the deeply personal, emotional journeys of freedom’s charter generation—the people born into slavery who walked into a new world of freedom during the American Civil War.

## Punching Bag

Rex Ogle

**The companion to Rex Ogle's award-winning *Free Lunch* (ISBN 978 1 324 01694 6) is a searing account of adolescence in a household torn by domestic violence**

*Punching Bag* is the compelling true story of a school career defined by poverty and punctuated by outbreaks of domestic abuse. Through it all, Rex Ogle threads moments of grace and humour that act as beacons of light in the darkness. Compulsively readable, beautifully crafted and authentically told, this is a remarkable memoir about a teenager's cycle of violence, blame and attempts to forgive his parents—and himself.
